Press Release; 2020-25
All dengue testing at DPHSS suspended until further notice

After the electrical fire on 11/26/2019 at the Central DPHSS facility in Mangilao, since the resulting internal damage prevents the Guam Public Health Laboratory (GPHL) from doing any dengue testing, therefore all PCR dengue testing at the GPHL is suspended until further notice.

Private physicians and medical providers can continue to order off-island testing for dengue (Igg and Igm).

For uninsured patients where testing for dengue is warranted, refer patients to the Northern Community Health Center (NCHC). NCHC will send the tests off-island.

For more information please contact 888-9276.
